Have you ever wondered what it would be like? You know? To walk a mile in another man's shoes. 'The devil is laughing alright! Not only am I practically a junkie again, I'm also cheating on my wife with a married woman. This isn't backsliding. This is diving head first into a bucket full of sh*t. And I'm so numb I can't even smell it.' Somehow everything had just kind of snowballed and David didn't even know how it got that bad. But the devil did! "I am not much of a reader, but I owed someone a favour. So I flipped through the first few pages, I didn't put it down until I finished it!" Gerry Brummer

The fingers of pianists are broken for playing bourgeois music, teachers are humiliated and worse—the Cultural Revolution is in full fury on the mainland. Hong Kong is rife with rumors and riots. Nonetheless, Dimitri Johnston feels an affinity for China that is not shared by his wife. (She is not so taken with him either.) When he meets a young Chinese dancer, they become infatuated.

This is the 10th Anniversary Edition of Mark Friedman's acclaimed book about Results-Based Accountability (RBA) also known in parts of the UK as Outcomes-Based Accountability (OBA). This is a "how to" book for government and nonprofit agencies working at the city, county, state, and national levels to improve community quality of life and the performance of program services. RBA is a common sense approach that replaces all the overly-complex and jargon-laden methods foisted on us in the past. The methods can be learned and applied quickly. And all the materials are free for use by government and non-profit organizations. In addition to providing practical methods, the book also makes a contribution to social

theory by explaining the contribution relationship between program performance and community quality of life. As such it is a valuable tool for both program administrators and evaluators. The RBA framework has been used in over 40 U.S. states and numerous countries around the world. Additional information about RBA can be found on the FPSI website resultsaccountability.com and in the soon-to-be-released RBA Companion Reader. (For those who already have the 2009 edition of *Trying Hard Is Not Good Enough*, please note that there is no change in the basic message and structure of RBA, and the 2009 and 2015 editions can be used concurrently.) A complete inventory of changes in the 2015 edition can be found on the FPSI website.

The Holy Bible, Contemporary English Version (CEV) was introduced beginning with the New Testament in 1991. The entire Bible was released in 1995. The translators of the CEV have diligently sought to capture the spirit of the King James Version of the Bible (1611), as the translators of that magnificent translation desired nearly four centuries ago that the Scripture 'be understood' by ordinary people. Those responsible for translating the CEV understand that more people hear the Word of God read than actually read it for themselves. The CEV differs from all other English Bibles--past and present--in that it takes into consideration the needs of the hearer, as well as those of the reader, who may not be familiar with traditional biblical language. The CEV has been described as a user-friendly, mission-driven translation that can be read aloud without stumbling, heard without misunderstanding, and listened to with enjoyment and appreciation, because the language is contemporary and the style is lucid and lyrical.
